

BUREAU PLANS CRUSADE AGAINST HOME BREWING

Will Wage Campaign Against Sale of Ingredients Used in Manufacture of Intoxicants.

MALT AND HOPS UNDER BAN

Officials Hope to Restrict Sale Under Provision of Law Which Prohibit Except Under Permit. Regarded as Extreme Step.

[By Associated Press.]
WASHINGTON, Nov. 12.—The internal revenue bureau, in formal statements today, confirmed reports that a crusade against home brewing of alcoholic beverages is planned by the government's prohibition enforcement agencies. The bureau did not reveal, however, the methods it proposed to employ in the campaign nor admit that it had approved preliminary instructions by prohibition Commissioner Kramer directing that sales of malt and hops be restricted to bakers and confectioners.

At malt extract, hops, isinglass, gelatin or other materials are sold or advertised for sale in circumstances which show that they are intended for use in the unlawful manufacture of intoxicating liquor, said a statement issued tonight by prohibition Commissioner Kramer. The statement was issued in the name of the bureau to prosecute persons so offending.

"The so-called home-brewed beer manufactured in the home for beverage purposes, even though for the sale use of the family and bona fide guests, is, under the bureau's construction of the law, illegal and the sale of materials for the purpose of such manufacture is likewise illegal."

Difference of Opinion.
There was an apparent difference of opinion between officials of the bureau of internal revenue and Commissioner Kramer's staff of advisers as to the powers granted under the Volstead act with respect to prohibiting the sale of articles employed in the manufacture of beer at home. Commissioner Williams conferred during the evening with advisers familiar with the act and this was followed by numerous other conferences in the bureau, the nature of which was not disclosed.

The only information obtainable at prohibition headquarters indicated that the order restricting the sale of malt and hops, to which the Ohio director referred, were in the form of confidential instructions sent to all enforcement officers. This method is commonly employed by Commissioner Kramer in all orders issued, no publicity being given to them except in unusual cases.

As to Legality of Sale.
"In connection with the so-called home-brewed beer," Commissioner Williams' statement declares, "the impression seems to prevail among some people that materials which are ordinarily used in the manufacture of intoxicating liquors may be sold freely and legally even though sold for the purpose of making intoxicating liquors. When such materials are sold for the purpose of being converted into lawfully manufactured intoxicating liquors such transactions of course are legal if the law and regulations with reference to such manufacture are complied with."

The commissioner cited provisions of the law which state specifically that articles and contrivances "intended" to be used in the manufacture of liquor cannot be sold except under permit. It was indicated that prohibition officials believed they would restrict the sale of malt and hops under these provisions.

Frequent proof has come to prohibition headquarters that the rapidly increasing spread of homebrewing among all communities, officials have said it was becoming the best method of circumventing the law, but have felt powerless to check it. The attempt now to control homebrewing by restricting the sale of articles to be used in the home manufacture of intoxicants was regarded as the most extreme step yet taken by enforcement officials.

REAPPOINT DR. WILLIAMS HEALTH COMMISSIONER

(Continued From First Page.)
which will insure that she is capable of examining a child for such defects as are usual, such as defective teeth, eye trouble, malnutrition or other things which might incapacitate a child for certain school work.

At the present time Dr. Williams is carrying on several campaigns for better health in various sections of the State. In sixteen counties of the State, county and United States Public Health Service officials are co-operating in sanitation work through the efforts of the Arlington County, where the work is being done in perfect co-operation, but one death from typhoid was reported during the year. In 10 per cent of the counties of the State Dr. Williams has been instrumental through his department in establishing public health nurses and child welfare work.

ITALY AND JUGO-SLAVIA EXECUTE NEW TREATY

Diplomats of Both Countries Express Satisfaction Over Completed Document.

[By Associated Press.]
SANTA MARGHERITA, ITALY, Nov. 12.—The treaty between Italy and Jugo-Slavia was signed this evening at Rapallo.

The preamble of the treaty reads: "The kingdom of Italy and of the Serbs, Croats and Slovenes are sincerely desirous to establish cordial relations between the two countries for their common well. Italy recognizes the constitution of the neighboring state as the realization of one of her highest aims."

The diplomats of countries expressed great satisfaction over the treaty.

America Must Quit Dreaming.
PITTSBURGH, Pa., Nov. 12.—"America sets her industrial house in order and quits dreaming about continued industrial supremacy. She will awaken to find Europe in her markets competing against her. The year 1921 will be a year of struggle for the annual convention of the Society of Industrial Engineers here today."

REPORT EFFORT TO LAND CABLE AT MIAMI, FLA.

Commandant at Key West Advised Operation Would Be Undertaken Without Executive Permit.

WASHINGTON, Nov. 12.—The Navy Department today advised the commandant at Key West, Fla., that there was a report that another effort would be made soon to land a submarine cable from Barbados at Miami, Fla., without an executive permit.

First efforts to land the cable were reported last July and at that time the navy sent destroyers to Miami to prevent the cable ship from coming within the three-mile limit. The cable vessel was a British craft, and the British ambassador here sent a message to the captain warning him not to attempt to carry out the operation until a legal permit for it had been granted.

Western Union Enters Denial.

NEW YORK, Nov. 12.—G. W. E. Atkins, first vice-president of the Western Union, in the absence of Newcomb Carlton, president, today denied the company soon would attempt to land a submarine cable from Barbados at Miami, Fla., without executive authority.

GREECE TO OPPOSE RETURN TO THRONE OF CONSTANTINE

"Opposition Wants Him Back," Says Venizelos, "But We Will Shed Our Blood"

ATHENS, Greece, Nov. 12.—Premier Venizelos, speaking here today with regard to plans to place King Constantine on the throne, said: "The opposition wants Constantine back, but we will shed our blood first. The opposition declares the succession must be determined by a plebiscite. Their object is to prolong the present state of suspense and prevent the return of the Greeks to normal life. The opposition thus serves the monarchial system. They are strange people to make such trouble in view of the nation's sacrifice, which have given it national freedom. Our traditional foes have been cast down. Bulgaria has been driven from the Aegean and Turkey no longer is a European power."

AUSTRIA SEEKS ENTRANCE TO THE LEAGUE OF NATIONS

Ready to Fulfill All International Obligations, Thinks She Should Belong to "Family."

GENEVA, Nov. 12.—Austria's formal application for admission to the league of nations, signed by Herr Mayer, Minister of Foreign Affairs, was received by the secretary of the league this morning. Attention is called in the application to the fact that Austria was given assurance when she signed the treaty of St. Germain that she would be admitted to the league at the proper time, and it says the proper time has come. Austria, it explains, being ready to fulfill all her international engagements, thinks she ought to belong to the family of nations.

CANADA'S WHEAT SACKS WOULD BELT GLOBE TWICE

Country's Output Totals Nearly 200,000,000 Bushels, Says Dominion Agriculture Department.

OTTAWA, Ont., Nov. 12.—If Canada's entire wheat crop of 230,458,000 bushels were sacked and the sacks were laid end to end, it would form a line that would reach twice around the world at the equator. There would be enough sacks to make eighteen continuous rows stretching from Montreal to Vancouver in a highway of wheat sufficiently wide for an automobile to travel upon.

This computation is based upon figures given out by the Canadian Department of Agriculture which show that 100,000,000 bushels of crop will be required at home to feed the Canadian people and for seed purposes. This will leave an exportable surplus of 130,000,000 bushels which is enough to furnish over 25,000,000 people with bread for one year.

More than two bushels of oats will be threshed for every bushel of wheat in the same government authority.

STORMY SESSION MARKS GOTHAM BUILDING PROBE

Payment of \$32,000 by Contractor to Head of Trades Council for "Strike Insurance" Alleged.

[By Associated Press.]
NEW YORK, Nov. 12.—After another tumultuous session with Mayor Hylan, the joint legislative committee investigating the "building trust" today heard testimony alleging the payment of \$32,000 by a building contractor to Robert P. Brindell, president of the Building Trades Council, for "strike insurance."

Testimony by Hugh S. Robertson, of Todd, Irons & Robertson, that he had paid this amount as part payment on an agreement to pay the labor leader \$50,000 for protection against strikes, came as a startling climax to the afternoon session of the committee, which spent the greater part of the day probing into the city's school limestone contracts.

Despite protests by Samuel Untermyer, the committee's counsel, Mayor Hylan was trying to turn the hearing into a "circus" and "this orderly investigation into a general bazaar," the Mayor persisted throughout the session to get a letter before the committee exonerating him of any responsibility in having the school building contracts changed from terra cotta to limestone. Failing in this, the Mayor gave the letters to newspapers for publication.

The testimony by Robertson, whose concern has been building contracts for the Cunard pier terminals in New Jersey, a project involving between \$35,000,000 and \$40,000,000, revealed a new form of alleged graft, as the builder said he paid the money not only for insurance against strikes, but for a "lot of information as to future labor conditions."

Robertson testified he had agreed to pay Brindell a total of \$50,000 for his protection and advice and made the first payment of \$20,000 on March 23, following a dinner with the labor leader in the Commodore Hotel. About May 7, after another dinner with Brindell, the witness said he rode "around the block" with the labor leader and left \$6,149 on the seat when he left the machine. The third payment of \$5,551, he said, was made on May 14, and two more payments of \$1,000 each, Robertson added, were made to Brindell in September and October after "a ride around the block" and a hotel dinner.

Robertson said the checks drawn to furnish the cash for Brindell had been charged to "preliminary expenses" and that the amounts were added to the contract figures.

HARDING PLANS SERIES OF TALKS IN SOUTHLAND

(Continued From First Page.)

States that long have been pillars of the Democratic solid South. The first of these addresses was delivered in Brownsville, Tex., yesterday, and the third has been scheduled for December 5 at Bedford, Va. Speeches outside American territory are to be avoided, and Mr. Harding indicated today that he did not expect during his Panama trip to go within the boundaries or waters of any foreign country. Among other things he has received one from Preston McGowan, American minister to Venezuela, asking that he go to Venezuela and Colombia, and during his stay here he has been asked informally several times to pay a visit to Northern Mexico. He is said by those close to him to feel that such visits at the present time would be inadvisable. The exact time of Mr. Harding's departure from Point Isabel has not been fixed. On Tuesday he is to go into Brownsville to exchange greetings with Governor Hobby, of Texas, and he may spend the night there to avoid an early morning motor ride to catch his train at 10 o'clock the next morning. It is considered more likely, however, that he will come back here for the night.

Most of today the President-elect devoted to golf, motoring the twenty miles to the Brownsville links through a cold, damp northern gale that had broken up his tarpon fishing off Point Isabel. Despite the disagreeable weather, he tramped over the muddy course for eighteen holes.

GRIFFITHS UNDER ARREST

LONDON, Nov. 12.—According to the Morning Post's first edition, Frank Griffiths, brother of Arthur Griffiths, "vice-president of the Irish republic," has been arrested by orders from the British government.

WOULD ADMIT FORMER ENEMY STATES TO LEAGUE

Lord Robert Cecil, One of Chief Authors of Covenant, Supports Plan.

ITALY, TOO, IS ACQUIESCENT
France and Belgium Will Resist Admission of Germany and Hungary—No Opposition to Austria and Bulgaria.

[By Associated Press.]
GENEVA, Nov. 12.—Lord Robert Cecil, one of the chief authors of the league of nations covenant, was coming to the assembly of the league as a delegate from South Africa, will support the proposed immediate admission to the league of former enemy states. It is expected here, Italy, Switzerland, the Scandinavian states and some of the South American nations are understood to be favorable to such a plan.

France, Belgium, Rumania, Jugo-Slavia and Czechoslovakia will resist the admission of Germany and Hungary, although they are not unfriendly to Austria and Bulgaria. There are indications in league circles that the drift toward admission of former enemy countries is strong. The committee's counsel, Untermyer, is likely to reach the necessary two-thirds of the members, unless a compromise is effected. The sentiment is growing that, whatever may be the merits of the case, the discussion in the assembly is likely to develop a sharp controversy which the leading members of the league desire to avoid. At the first session it is probable the immediate admission of Austria and Bulgaria will be proposed and an effort made to have action in the case of Germany postponed to another meeting of the assembly, probably in the spring.

Attention is being directed to the anomaly of admitting Germany while she still is technically at war with the United States. Czechoslovakia is stoutly opposed to the admission of Hungary and is unable to support the entry of Germany, but it is understood she will not contest the admission of Austria and Bulgaria, who now appear nearly sure of election.

WEST VIRGINIA FACES THREE HARD CONTESTS

Coach McIntire Busy Getting Team In Shape for Rutgers, Bethany and W. J.

[Special to The Times-Dispatch.]
MORGANTOWN, Nov. 12.—With Rutgers coming here today and Bethany College's strong eleven following Saturday, Coach "Tubby" McIntire, of the West Virginia eleven, has the unique task of preparing for the final "big" game of the year with Washington and Jefferson at Washington on Thanksgiving and at the same time taking care of both these teams which are the very best in the same class with the Mountaineers.

Sanford's team causes less fear than does Bethany. Bethany downed the University of Detroit 9 to 6 in a game at Washington two weeks ago and has shown other evidences of unusual strength, and needless to add, when the J. and J. team plays West Virginia they fight their way with the W. and J. game but five days off McIntire's men are going to be in no mental condition for a hard battle with Bethany.

Poster Sanford's strong Rutgers has been a great Virginia worried. It was through the line that Washington and Lee made their consistent victory. Thursday and McIntire has worked frantically this week to bolster the rush line to withstand Saturday afternoon. In each game Rutgers has played the one redeeming feature been the work of his forwards and McIntire fears that his own men will give way before their line work.

On the other hand McIntire has been laying stress on open plays with which he downed Sanford last fall and believes that with back's fine running and the passing of Martin and Dawson that he can achieve a victory.

CORK JAIL HUNGER STRIKE CALLED OFF ON 94TH DAY

Government Medical Officers Hope to Save Lives of Nine Survivors.

DUBLIN, VA., Nov. 12.—The hunger strike of the nine Irish prisoners in the Cork jail was called off today the ninety-fourth day of the strike. A statement issued tonight at Dublin Castle said the hunger strikers in Cork jail, who had been without food since August 11, resumed taking nourishment at 3 o'clock this afternoon.

The meal, the statement added, was administered under the direction of the medical officers of the jail, who believe that with careful treatment the prisoners ultimately will recover.

Have Not Reached Retail Markets

Much-Talked-Of Lower Prices Fail to Put In Appearance Here.

The Richmond market basket, which have been hearing about H. C. L. getting on the tobacconist's list looking for some evidence of the fact in the regions of the retail markets. They will not find much of it when they go to market today to buy the things to make up the big Sunday dinner. There are but few changes in the prices of staples and some of the few are changes upward—eggs, for instance. The markets are well supplied with meats, fish, fruits and vegetables, but there is nothing new. In the poultry supply, no changes whatever, except that more turkeys and better ones are to be found. Eggs have gone up to 85 cents for the best fresh country kind. The other kind can be had at 75 to 80 cents per dozen.

ROAD AMENDMENT GIVEN 15-TO-1 VOTE IN RICHMOND

Measure to Allow State Bond Issue for Highways Received Enthusiastic Indorsement.

Compilation of ballots cast in the general election of November 2, in regard to the good roads amendment, which will allow the issuance of bonds for highway construction, show that the amendment was not only carried in every ward in the city, but was indorsed by a vote of practically 15 to 1.

Second Madison was the stronger for it than any ward in the city, casting but six votes against the amendment and 517 for it. Fourth Clay cast 1,110 for the amendment, with but seventeen against. First Madison cast 1,125 for the amendment, with 125 against. First Jefferson's vote was 198 for and thirty against, and Sixth Madison, cast 163 favorable, the amendment and 136 opposing it.

RICHMOND MAN HONORED

Named Vice-President of National Association of Bottlers of Carbonated Beverages.

CINCINNATI, Ohio, Nov. 12.—At the meeting of the National Association of Bottlers of Carbonated Beverages, James Verner, of Detroit, was elected president and George C. Bligod, Richmond, Va., vice-president of the association.

Motorman Fined \$50.
S. D. Powrie, motorman of a Broad and Main Street car, was fined \$50 and costs in Police Court yesterday for driving a car on a charge of operating the car in a careless and reckless manner. Counsel for the car company gave notice that an appeal would be made to Hustings Court.
